

I listen to AIR 1 on a local FM translator. I do not have the option of listening to it on the internet, so if my local station is displaced by an LPFM broadcaster I will lose an important connection to my faith, and others in our community will lose as well. AIR 1 provides me and other christians with a way to stay connected to God as well as having a way to reach non-christians through music. AIR 1 is our positive alternative to the increasingly inappropriate programming that is bombarding our airwaves today. I understand that if I don't like what is being broadcast I can change the station, but that only works if you allow me to have a choice worth making. Please don't take away my AIR 1 station.
